Speaking to a Senator on the 6th April, the President is reported to have said he felt assured that in consequence of this voto the American interests in China would be stronger than eyer, and that the Chinese Government French mail, with the advices dated as above, would be more readily disposed to make concessions to the United States in the matter of restricting Chinese subjects from coming to the United States. therefore, that the old Bill has been passed in its integrity with the simple reduction of the term of prohibition, and we sincerely engineers in question; whether before escaping trust that the measure which has now become law is really one for the restriction, and not for the exclusion, of Chinese immigrants into the great Republic. Mr. ANGELL, the late American Minister to China, expressed the opinion that a five years' limit would be long enough, and its distinctly stated that the understanding with the Chinese Officials when the Treaty of 1880 was negotiated was that the restriction or suspension should be for lonsul at Manila. The Chinese Government, would certainly not approve of any sweeping measure for the total exclusion

of the Chinese from the United States for a long term of years; and President ARTHUR is aware of the fact. It is probable therefore the new Bill is much more moderate than
